More about Goalball

- Goalball is a team sport designed specifically for athletes with a vision impairment and it is the most popular sport worldwide among blind or visually impaired people.
- Participants compete in teams of three and try to throw a ball that has bells embedded in it into the opponents' goal.
- The ball is thrown by hand and never kicked. Using ear-hand coordination, originating as a rehabilitation exercise, the sport has no able-bodied equivalent. Able-bodied athletes are also blindfolded when playing this sport.
